ABOUT US

MERAKI: Redefining Interiors & Exteriors with Innovation

Since 2015 MERAKI has been at the forefront of revolutionizing the Indian interior and exterior industry. As the country's first manufacturer of PVC Laminates, we quickly established ourselves as a trusted name, expanding into a diverse range of premium solutions. Today, MERAKI offers an extensive portfolio, including PVC Laminates, Acrylic Laminates, Interior Charcoal Louvers & Mouldings, Exterior Glads, Edge Band Tapes, Mirror Profiles, MDF/HDHMR Boards, and the newly launched Soffit Panels—delivering excellence in both aesthetics and functionality. Manufactured in our cutting-edge 6.5 lakh sq. ft. facility in Sonipat, Haryana, powered by German technology, our products uphold the highest quality standards while embracing sustainability. With a passion for craftsmanship and customer-centric innovation, MERAKI Laminates Industries Pvt. Ltd. continues to shape the future of modern design.

Now Introducing – A New Generation Decorative Surface

MERAKI Glass Laminates – the ultimate in High Gloss Finish. Designed to redefine elegance, this new-age product brings unmatched gloss, clarity, and reflection to your interiors. A benchmark in surface sophistication, MERAKI Glass Laminates are engineered for ultra-premium aesthetics with long-lasting durability. Ideal for spaces that demand brilliance, this innovation takes gloss to a whole new level.

TECHNICAL SPECIFICATION

THICKNESS : 1.25 mm (+/- 10%)
STANDARD SHEET SIZE : 2440mm x 1220mm

CLEANING & MAINTENANCE

- * Do not place any hot substrate or cookware directly on laminates.
- * Do not use thinner or any harsh cleaning agent to clean the laminate as it can give damage to surface of laminate.
- * Cleaning should be done with water along with a smooth cloth.
- * Exposure to temperature above 30°C may cause damage to surface.

CUTTING & INSTALLATION

- * MERAKI Glass Laminates can be cut by standard wood working tools.
- * Meraki Glass Laminates can be easily pasted by using water based or any neutral adhesives which are easily available in market. Kindly note that no solvent based adhesives should be used.
- * Clean the laminate and base substrate by soft brush or soft cloth before application.
- * The pressing of laminate should be done from middle and move towards the sides and corners of laminate sheet.
- * Sufficient pressure should be given to MERAKI GLASS LAMINATE for almost 15 hours to get a good bonding strength.

IMPORTANT GUIDELINES

To avoid Air Bubbles/Crack and Yellow Patch/Color Fading problems, follow the instructions-

- * Use of correct adhesive for pasting laminates to avoid air bubble after installation.
- * Make use of good quality and even base substrate (MDF, Plywood, Particle Board) as low quality products may absorb moisture in uncertain weather and then it loses moisture and creates air bubble.
- * If the sheets are in roll form, Before application, they should be kept straight under pressure for minimum 48 hours for getting better results.
- * Give sufficient pressure to laminate upto 15 hours to get good bonding strength and to avoid any bubbles.
- * Laminate sheet should not exposed to direct sunlight to avoid the color fading and yellow patches.
- * Do not use any harsh chemical or cleaning agent to clean the surface.
- * Do not place any hot substrate or cookware directly on laminates.

LIMITED WARRANTY NOTE : Meraki warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any manufacturing defect, Meraki is liable for the product cost only, Meraki is not liable for any complains in the following cases :

- * Color variations from batch to batch production.
- * Improper handling of product or any transportation damage.
- * Improper installation of product.
- * Outdoor applications.
- * Exposure of laminate sheet to direct sunlight.

IT IS ADVISABLE TO CHECK THE BATCH NUMBER TO AVOID COLOR VARIATION. MERAKI IS NOT LIABLE FOR ANY COMPLAINS IF THE PRODUCT IS NOT PROPERLY HANDLED , INSTALLED , MAINTAINED ACCORDING TO THE GIVEN GUIDELINES.

KINDLY REMOVE PROTECTIVE FILM AFTER 7 DAYS OF INSTALLATION OF LAMINATE SHEET.
